PROFESSIONAL SUMMARY:

- **3.7+ years of total IT experience**, including **3.5 years as a React.js Developer** with a strong focus on modern web application development.
 - Proficient in **React.js, Redux, Next.js, Tailwind CSS, SCSS, and JavaScript**, with hands-on experience in building dynamic and scalable **Single Page Applications (SPAs)**.
 - Strong expertise in **Next.js** for **Server-Side Rendering (SSR)** and **Static Site Generation (SSG)**, ensuring performance and SEO optimization.
 - Experience using **Vite** for faster development cycles and efficient build processes.
 - Skilled in **RESTful API integration** and optimization for improved data flow and performance.
 - Familiar with **Agile/Scrum methodologies**, enabling effective collaboration and timely delivery of project goals.
 - Knowledgeable in **cross-browser compatibility, responsive design, and frontend performance optimization** techniques.
 - Experienced in **frontend-backend integration**, delivering smooth and reliable user experiences.
 - Proficient in debugging using tools such as **Chrome Developer Tools, React Developer Tools, and console-based debugging**.
 - Familiar with **unit testing** using **Jest, React Testing Library, and Enzyme** to ensure high-quality code.
 - Adept with **Git, GitHub, and GitLab** for version control and collaborative development workflows.
 - Ability to thrive both **independently and within cross-functional teams** in **fast-paced, Agile environments**.
 - Excellent **communication, problem-solving, and interpersonal skills** with a passion for innovation and continuous improvement.
-

TECHNICAL SKILLS:

- Front-end Technologies: HTML5, CSS3, SCSS, JavaScript, Tailwind CSS, Bootstrap.
 - Frameworks & Libraries: React.js, Redux, Next.js, ShadCN UI.
 - Development Tools: VS Code, Webpack, Vite.
 - Version Control & CI/CD: Git, GitHub, GitLab.
 - Testing Tools: Jest, React Testing Library, Enzyme.
 - Methodologies: Agile (Scrum).
-

WORK EXPERIENCE:

React JS Developer

Corefront Technologies Pvt Ltd – Bengaluru, India

Nov 2021 – Present

Project: Brandcorpit (Oct 2024 – Present)

Role: React JS Developer

Responsibilities:

- Developed a React.js-based platform for brand poster validation.
- Managed state using Redux Toolkit and optimized performance.
- Implemented TypeScript to maintain a strong type-safe codebase.
- Styled the UI using Tailwind CSS and ShadCN UI components for a modern, responsive look.
- Utilized Vite for a fast and efficient development process.
- Integrated AI-driven validation checks to ensure compliance with company guidelines.

- Ensured cross-browser compatibility and mobile responsiveness.
- Participated in Agile development with daily stand-ups and sprint planning.

Environment: React.js, Redux, JavaScript, Tailwind CSS, ShadCN UI, Vite, REST API, Git, Agile.

Project: Gencanvas-AI (Apr 2022 – Oct 2024)

Role: React JS Developer

Responsibilities:

- Designed, developed, and tested HTML5, CSS3, Bootstrap, JavaScript, and React.js that meets accessibility and web browser standards for the website.
- Developed Date Time Picker using Object-Oriented JavaScript extensively.
- Worked on responsive design and developed a responsive website for desktop, tablets, and mobile users using React.js.
- Experienced in building an isomorphic application using React.js and Redux.
- Used Middleware and Redux-Promise in the application to retrieve data from the back-end and also to perform RESTful services.
- Worked with backend engineers to optimize existing API calls to create efficiencies by deprecating unneeded API calls.
- Thorough understanding of CSS principles with a clear ideology for managing maintainable, scalable, and cross-browser code.
- Developed the relevant backend RESTful API using Node.js and Express.js.
- With the concept of React.js, worked on usage metrics and end-to-end events tracing for analysis purposes.
- Working experience on CSS background, CSS positioning, CSS text, CSS border, CSS margin, CSS padding, CSS table, pseudo-classes, pseudo-elements, and CSS behaviors in CSS.
- Responsible for checking cross-browser compatibility and hence worked on different browsers like Safari, Opera, Firefox, Google Chrome, and Internet Explorer.
- Resolved complex issues related to browser and network performance, cross-browser and legacy IE compatibility, client-side scaling, data modeling, usability, and testability.
- Deep understanding and working experience in Object-Oriented JavaScript programming and JavaScript Spring MVC frameworks.

Environment: React.js, Redux, JavaScript, REST API, Git.

Project: Rorex (Nov 2021 – Apr 2022)

Role: React JS Developer

Responsibilities:

- Developed a Next.js-based application with server-side rendering (SSR).
- Implemented SCSS for modular and maintainable styling.
- Designed a multilingual platform for global accessibility.
- Managed state using Redux Toolkit for improved efficiency.
- Developed features for project management, including status updates, documents, budgets, payments, and country-specific details.
- Ensured cross-browser compatibility and mobile responsiveness.
- Participated in Agile workflows with daily stand-ups and sprint reviews.

Environment: Next.js, React.js, Redux, SCSS, REST API, Git, Agile.

EDUCATION:

Bachelor of Technology (B.Tech), Mechanical Engineering

Swami Vivekananda Institute Of Technology, JNTUH – Hyderabad, 2023
